Digital profile

PROFESSIONAL SUMMARY

Results-driven Senior Flutter Developer and Technical Team Lead with 7+ years in mobile, web, and desktop application development, technical coordination, and end-to-end delivery. Experienced in Flutter and Dart, application architecture, API and database integration, client communication, requirement analysis, task planning, code reviews, and production support. Delivered enterprise and business solutions across dairy operations, billing, inventory, GPS tracking, education, sports-club management, music, vehicle service, and custom software. Manages development in any language the product needs, including agent-based development: plan the work, direct implementation, review the result, and ship it.

CORE TECHNICAL SKILLS

Mobile & cross-platform	Flutter, Dart, Android, iOS, Flutter Web, Windows, macOS, Linux, multi-screen layouts, multi-language apps
Architecture & state	MVVM, MVC, Clean Architecture, GetX, Provider, BLoC/Cubit, activity lifecycle, reusable components
API & integrations	REST APIs, JSON, authentication, payments, Stripe, webhooks, Firebase, Google Maps, GPS, Agora, social login
Database & data	MySQL, SQLite, database design, offline-first data, synchronization
Hardware	USB, RS232/RS485, PLC, thermal printers, biometric attendance, QR codes, PDF reports
Delivery	Java, Android SDK, Play Store and App Store release, GitHub, agent-based development

PROFESSIONAL EXPERIENCE

Senior Flutter Developer | Technical Leadership **June 2023 – Present**

Karmaa Source Private Limited

- Coordinate development, assign tasks, track milestones, and support on-time delivery.
- Work with clients to gather requirements, analyze workflows, define scope, and write technical specifications.
- Plan architecture, modules, database structures, API communication, authentication, and workflows.
- Guide developers, review code, and promote reusable components and coding standards.
- Coordinate mobile, web, desktop, API integration, testing, demonstrations, deployment, and production support.
- Build cross-platform Flutter applications with REST APIs, third-party SDKs, payment gateways, databases, and hardware.

Android & Flutter Developer **June 2019 – May 2023**

Addon Solutions Pvt. Ltd.

- Developed Android and cross-platform applications using Flutter and Dart.
- Implemented interfaces, business logic, REST API integrations, and database workflows.
- Improved responsive UI and performance; supported testing, releases, and maintenance.

Software Development Intern **December 2018 – May 2019**

Addon Solutions Pvt. Ltd. Practical training in mobile development, debugging, and delivery workflows.

SELECTED PROJECT PORTFOLIO

SUJAN Dairy Collection

Flutter desktop, SQLite, USB, RS232/RS485. Members, shifts, ledger, PLC, thermal receipts. Play: com.sujandairy.tech

Sujan Dairy Farmers

Farmer collection records, payments, and ledger. Play: com.sujandairy.milk.farmers

Sujan Vision

Dairy field workflows. Play: com.sujan.dairy.vision

Sujan Supervisor & Routes

Routes, farmer records, FAT/SNF, rates, payments, reports. Play: com.sujan.dairy.supervisor

KDS Management

Sales, dispatch, suppliers, payments, USB analyzers, scales, printers. Play: com.milk.kds

KFA Farmer

Farmer profiles, collections, payment history, ledger. Play: com.milk.farmers

True Track GPS

GPS tracking, route history, API communication. Play: com.truetrack

Employee Tracking

Check-in, visits, activity, expenses, notifications. Play: com.mybackofficework

Caltex Music

Persian music and video catalog. Play: com.caltexmusic.app

Autoly / Autoly Crew

Vehicle service, repairs, expenses, and the partner workshop app. Play: com.addon.autoly · com.addon.autoly.crew

UpBrand

Social media banners and brand graphics. Play: com.upbrandapp

Tgate

Visitor check-in for security guards and hosts, including paperless check-in.

Sports Club Member Management

Flutter web, REST, MySQL. Memberships, QR check-in, biometrics, payroll, shop, inventory. stag7star.in

RMD Collection

Flutter desktop. Customers, collections, receipts, ledgers, and period reports.

Café Invoice & Wallet

Billing, menu, wallet credit and debit, expenses, and reports.

Class Management

Students, attendance, exams, fees, installments, and PDF reports.

Inventory, Billing & Stock

Products, suppliers, purchases, sales, quotations, billing, and stock.

Online Food Ordering

Stripe payments, webhooks, and order-payment synchronization.

Dog Pet & Veterinary

Pet records and veterinary workflows on mobile and web.
